## INSTALLATION INSTRUCTIONS

To obtain a complete circle, it is important to follow the installation order of those illustrations.

The Essex kit will let you produce circular forms of up to 9 ft 6" in diameter. Use Manchester Classic stones for larger circles.

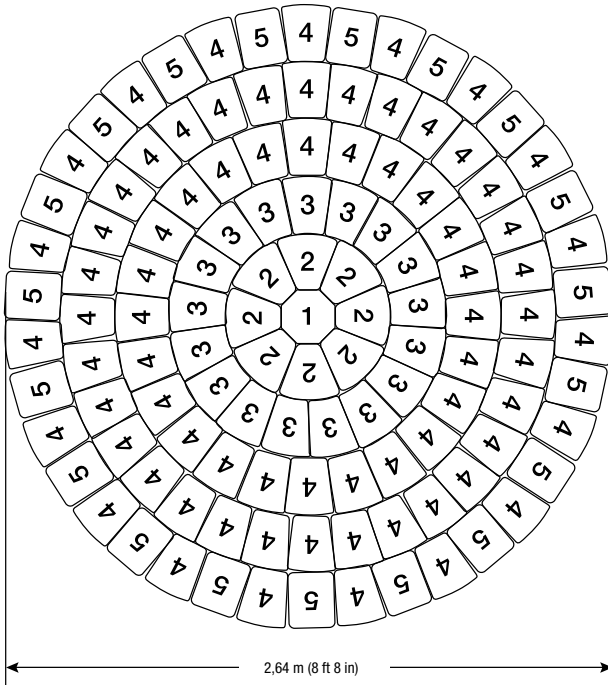

The Henri IV kit will let you produce circular forms of up to 8 ft 8" in diameter. Use Royal LionHeart paving stones for larger circles.

## HALF OR QUARTER CIRCLES

Use half-circles or quarter-circles to provide a unique and distinctive installation and break up the traditional monotony of straight lines.
